NOTICE TO CREDITORS

In the Matter of the Estate of LILLIAN McCULLOUGH, late of 26 Marlborough Street, Victoria, B.C., Deceased.

NOTICE IS HEREBY GIVEN that creditors and others having claims against the estate of the above-named deceased are hereby required to send them to the undersigned before the 30th day of March, 1959, after which date J. Alan Baker, the Administrator with the Will annexed of the above-named deceased, will distribute the said estate amongst the persons entitled thereto having regard only to the claims of which he shall then have received notice.

J. ALAN BAKER, Administrator with the Will annexed, By Crease & Company, his solicitors.

NOTICE TO CREDITORS

ESTATE OF FREDERICK ARLINGTON NELSON, DECEASED

Notice is hereby given that creditors and others having claims against the estate of the above named deceased, who died in the Municipality of Esquimalt, B.C., on the 3rd day of December, 1958, are hereby requested to send them to the undersigned at 408 Royal Trust Building, Victoria, B.C., before the 20th day of March, 1959, after which date the Administrator will distribute the said estate among the parties entitled thereto, having regard only to the claims of which he then has notice, and final distribution will be made one year from the date of death.

Dated at Victoria, B.C., this 26th day of February, 1959.

I. M. Horne, Official Administrator for the County of Victoria.

ATTENTION WRECKERS

Sealed Tenders will be received by the City Clerk, City Hall, Victoria, B.C., up until noon on Thursday, March 12, 1959, for demolition and removal of the building situated on Lots 4 and 5, Plan 1203 and known as 1390 Hillside Avenue, Victoria, B.C.

Form of tender, general conditions and specifications may be obtained from the undersigned.

Bids must be enclosed in an envelope marked "Tender for Demolition" and accompanied by a certified deposit cheque for $300.00 made payable to the City Treasurer.

The lowest or any tender will not necessarily be accepted.

G. F. SHARPE, City Purchasing Agent.

City Hall, Victoria, B.C., March 3, 1959.

TENDERS FOR SEWER PIPE AND FITTINGS

Sealed tenders will be received by the City Clerk, City Hall, Victoria, B.C., up until noon on Thursday, March 12, 1959, for the City's annual requirement of sewer pipe and fittings.

Specifications and form of tender may be obtained from this office. The tender form provides space for alternative bids on vitrified, concrete, and any other available pipe suitable for this purpose.

Each tender in excess of $2,000.00 must be accompanied by a certified deposit cheque equal to 5% of the amount thereof made payable to the City Treasurer. Envelope containing tender must be marked "Tender for Sewer Pipe and Fittings."

The lowest or any tender will not necessarily be accepted.

G. F. SHARPE, City Purchasing Agent.

City Hall, Victoria, B.C., March 3, 1959.

NOTICE

The Greater Victoria Water District has applied to the Public Utilities Commission for a Certificate of Public Convenience and Necessity to own and operate the pipeline between Glen Lake and Williams Head, commonly known as Quarantine Main. The District has advertised that, if and when ownership of this pipeline is accepted, new applications for service will not be refused, but such new service connections must be restricted to one-half inch in size and that no irrigation water of service larger than one-half inch shall be available in Metchosin areas south of Latoria Road.

A public hearing will be held in the Board Room of the Public Utilities Commission in the Central Building, 620 View Street, Victoria, on Friday, March 13, 1959, commencing at 10 a.m., to consider the application. Any persons wishing to make representations at the hearing should communicate immediately with the Secretary of the Public Utilities Commission.

H. W. MELLISH, Secretary, PUBLIC UTILITIES COMMISSION.

PUBLIC NOTICE

The Minister of Municipal Affairs has been requested to form a Local Area to provide zoning and building regulations for industrial purposes in accordance with the provisions of the Local Services Act in the area along the E and N Railroad from Leigh Road to the E and N. property bounded by Jacklin and Station Roads and including the Public Works yard and the Midland construction gravel pit. Only the following parcels of land are affected:

That part of Lot 80 lying north of the E and N Railroad and east of Leigh Road.

That part of Lot 73 lying north of the E and N. Railroad.

Lot A, Plan 657R.

That part of Lot 74 covered by Land Registry Plan 699R and 9459.

A public hearing will be held at the Canadian Legion Hall, Dunford Road, on March 10, 1959, at 8 p.m. to discuss the proposal.

The proposed regulations may be inspected at Room 444, Douglas Building, 617 Government Street, between the hours of 8.30 a.m.-12 noon and 1.10 p.m.-5.00 p.m. on March 4, 5, 6, 9 and 10, 1959.

W. D. BLACK, Minister of Municipal Affairs.

TENDERS FOR DREDGING

SEALED TENDERS, addressed to the undersigned and endorsed "TENDER FOR DREDGING, AREAS 1, 2, 3, 4 IN THE FRASER RIVER, B.C.", will be received in the office of the Secretary until 3 p.m. (E.S.T.), WEDNESDAY, MARCH 25, 1959.

Combined specification and form of tender can be seen and obtained at the office of the Chief Engineer (H. & R.), Ottawa, Ontario, also at the office of the District Engineer, Begg Building, 1110 West Georgia Street, Vancouver, B.C.

To be considered each tender must be accompanied by one of the alternative securities called for in the tender documents. Tenders must be made on the printed forms supplied by the Department and in accordance with the conditions set forth therein.

Tenders must include the towing of the plant to and from the work.

The dredges and other floating plant which are intended to be employed on this work, to be eligible, must—

(a) be of Canadian or United Kingdom registry, and
(b) be of Canadian or United Kingdom make or manufacture and, in the case of U.K. equipment, must have been in Canada at least one year prior to the date of the tender call.

The lowest or any tender not necessarily accepted.

ROBERT FORTIER, Chief of Administrative Services and Secretary, Department of Public Works, Ottawa, February 27, 1959.

Satellite's Spot Slips

Maps May Miss But Not by Much

By JAMES FREE

WASHINGTON (NANA) — There's no need for alarm, but the truth is you may not be precisely where you think you are.

The U.S. Army is still in preliminary stages of computing data that its tracking stations have received from man-made satellites circling the earth, but already it looks like many points may be located improperly on standard maps.

Signals from U.S. satellites, mainly Vanguard, show that Clark Field in the Philippines, where one of the tracking stations is located, is more than 800 yards away from where it was thought to have been.

Another station, at Roi Namur in the Kwajalein Islands, was shown to be off its map location by about 600 yards.

These two misses may not be as good as a mile, but they are getting up in that neighborhood.

Maj.-Gen. William Dick Jr., director of special weapons for the army, has told the House science and astronautics committee that:

"Even through limited use of satellites thus far, the army map service has corrected the location of some Pacific islands by as much as two or three miles."

The satellites have afforded the first opportunity to double-check map locations made over long over-water distances.

This kind of rechecking from outer space could reveal errors in the mapping of many points in North America as well, the army points out. Since the earth now has been found to be slightly pear shaped, chances are quite a few mismapped points will be discovered.

Union Seeks 'Small Car' Protection

OTTAWA (UPI) — Prime Minister Diefenbaker yesterday acknowledged receipt of a telegram from the United Auto Workers expressing concern for the future of the Canadian automobile industry in the face of growing "small car" production.

CCF House Leader Hazen Argue, who referred to the telegram sent last week by UAW local president George Burt, suggested that the government ask the Canadian car industry if it intended to produce small cars to protect its employees against United States production of the English-type models.

NOTICE TO CREDITORS

ESTATE OF OLIVIA EUPHEMIA STRIP, Deceased.

Notice is hereby given that creditors and others having claims against the estate of the above named deceased, who died at the City of Victoria, B.C., on the 19th day of June, 1958, are hereby requested to send them to the undersigned at 408 Royal Trust Building, Victoria, B.C., before the 28th day of March, 1959, after which date the Administrator will distribute the said estate among the parties entitled thereto, having regard only to the claims of which he then has notice, and final distribution will be made one year from the date of death.

Dated at Victoria, B.C., this 26th day of February, 1959.

Official Administrator, 408 Royal Trust Building, Victoria, B.C.

Scrap Arms Plea Hailed By City Group

Peace by Peaceful Means Society in Victoria this week hailed news that the government has been asked to scrap the armed forces and throw the nation's entire resources into building for peace.

The request came from the board of evangelism and social service for the United Church of Canada.

Society president Glen Hamilton said reaction of two local churchmen who feel that armed forces are a "necessary evil" and cannot be abandoned, was a "typical example of pre-atomic thinking."

Action of the board of evangelism and social service, following a 7-to-4 vote in favor, was in direct opposition to the stand taken last September by the general council — the "parliament" of the 1,000-member Protestant denomination.

He Just Wouldn't Co-operate

Quebec game and fisheries department workers called in a tractor in attempt to budge this half-ton bull moose, but the moose wouldn't co-operate. Animal was found sleeping in construction company yard in Montreal suburb. He was finally put to sleep with an injection and taken to the Granby zoo.

Radiation Weak Enough

Space Flight Base Could Be Canada

CHURCHILL, Man. (NANA) A small rocket-launching site on the bleak sub-Arctic tundra near here could become "Earth Space Terminal Number One" for manned astronautical travel.

Because of its nearness to the Northern magnetic pole, Churchill may provide a "window" through the hazardous world-girdling belts of radiation that scientists believe reach lethal strength over southern regions, including Cape Canaveral.

Near this tiny port, open only three months in the year because of severe freeze-up conditions, are a Canadian army experimental base, an austere airfield and a rocket site, operated by the U.S. with Canadian scientists co-operating.

EXPANSION NEEDED

So far it has been used for firing comparatively small research, particularly in connection with the recent International Geophysical Year. Big expansion would be needed before any major outer-space missile could blast off here, but all the necessary groundwork has been done.

In grim contrast to Cape Canaveral with its sunshine, palm-fringed beaches and night life, this would be a bleak post. For more than half the year, there is nothing but a vast expanse of snowbound tundra and grey sea-ice.

DOUBLE RADIATION

Physicists and rocket experts are eying Churchill's potentials as a result of researches by U.S. scientist Dr. James Van Allen, who is sure there are two belts of radiation around the earth.

He believes that, above the North and South magnetic poles, radiation seems to be weak enough to permit safe passage by manned spaceships.

Northern locations—in Canada, Alaska, Greenland and Siberia—are viewed more favorably by rocketmen than the South Pole area because weather conditions are better, operational facilities are far more developed, and possible rocket launching sites are much easier of access.

Jet Airport Plans Public March 25

VANCOUVER (CP)—Plans for Vancouver's jet-age air terminal will be unveiled at the March 25 meeting of the Vancouver Airport Board.

Location of the building, cost estimates of which have not been disclosed, will be near the geometric centre of the airport. Anticipated cost is expected to be about $3,500,000.

Army Allows a Little Liberty

Pakistan Police State But Things Get Done

KARACHI, Pakistan (AP) —"I suppose one has to call it a police state," said a professor.

"But it's not consistently a police state and there is a great deal of liberty in most fields, and one has to admit the government gets things done."

This seems a typical progress report in Karachi four months after the army took over the Pakistan government.

You can be hauled away for denouncing the government when your grocer runs out of flour. More than 250 people were arrested in five days during a crackdown on begging and black marketing. A 45-year-old man was sentenced to three years hard labor for winking at a 17-year-old girl.

The press is not censored, but most editors consult the government for "advice" on certain types of stories.

"Unwarranted criticism" of the government is an offence under martial law. The result is little criticism of any kind.

Yet the over-all impression of a visitor is that even in private conversations far more people praise the government than in October.

Its biggest accomplishment has been land reform. The fixing of 1,000-acre maximums for landholders was praised throughout the country.

More refugee housing has been built or authorized in the last four months than in the previous five years. Karachi's streets are far cleaner, and fewer people sleep on the sidewalks.

"Another important factor is the personality of President Ayub Khan," said a newspaper editor. "He simply has not emerged as the hard-fisted dictatorial type."

Tourist Mecca Unsanitary

Famed Paris Market to Go

PARIS (Reuters) — Les Halles, the crowded central market of Paris, a favorite tourist spot but the bane of retailers, farmers and truck drivers, is to be gradually broken up.

Under a new series of government decrees, wholesale dealings in fruit, vegetables, meat, cheese and butter during the next seven years will be transferred to new markets on the outskirts of Paris and in the provinces.

Les Halles was designed to feed a million people, and the last reform in the market was carried out in 1860. Since then, it has spread and straggled to neighboring side streets in its efforts to cope wth the needs of the present 7,000,000 people of greater Paris.

Behind its bustling facade, a struggle has been going on for years to change the outdated structure of this market. So tight and complex is the dealers' organization that several attempts to transfer the market to more economical sites have ended in failure.

Some of the unsanitary storage sheds were built nearly a century ago and now the warehouses are so crowded and inadequate that more than half the produce lies in the streets and pavements without cover.

Under the reform of wholesale selling conditions, new markets will be linked by direct railroad lines, which should reduce transport charges.

The reduction in the number of middlemen between the producer and the housewife also is expected to cut costs.

Eskimo Widely Spoken

MONTREAL (CP) — Next to English, the Eskimo language has the widest geographic spread of any language in the world, says Walter Kennon, curator of the Royal Ontario Museum at Toronto.

"It is interesting to note," said the anthropologist in an interview, "that when Rasmussen, the explorer, travelled from Greenland across the Canadian Arctic to Siberia he could make himself understood in Eskimo all the way.

"This constitutes the widest spread of any language in the world, apart from English."

Nuclear Price 'Tragically High'

Missiles 'Fought' By Peace Society

Victoria's Peace by Peaceful Means Society yesterday sent a letter to Prime Minister Diefenbaker protesting the government decision to buy missiles and build missile bases in Canada.

The letter suggested Canada would lose her "political and economic independence" under the missile plan and asked:

"Why we must ape the negative posture of defence adopted by the U.S.?

"It seems to some Canadians," the letter continued, "that in the vain pursuit of national security we are losing our self-respect, even our identity as a nation. The price of joining the nuclear club is tragically high."

The peace society also deplored the effect abandonment of the Arrow aircraft would have "on those involved in the aircraft industry" and called for utilization of "our tax dollars to re-establish these men and industries on a commercial footing, rather than burn up these same dollars in the . . . potlatch of the nuclear arms race."

Traffic Fines

CITY

William J. Russell, 2035 Carnarvon, exceeding 30, $25.

John W. Catterall, 4221 Quadra, exceeding 30, $20.

Brian Ralph Holness, 821 McKenzie, exceeding 30, $25.

Jacob Esau, 949 Collinson, one headlgiht, $10.

Blessing for Helicopter

When a U.S. helicopter descended to a perfect landing on the small St. Damascus courtyard of the Vatican, Pope John blessed the machine. His Holiness often travelled by air as a cardinal and he expressed hope that he would make a trip soon in the helicopter.

Scientists Crack Disease Mystery

SAN JUAN, Puerto Rico (NANA)—Brief Asphyxiation at birth has been established as a basic cause of cerebral palsy, probably the most disabling of all nervous diseases.

The incurable malady usually appears in childhood or adolescence, rendering the victim dependent on others for the rest of his life. It is characterized by loss of control over the body's muscles.

In U.S. National Institute of Health experiments, scientists have established a direct cause and effect relation between asphyxiation at birth and development of the disease later in life.

Cases of brief asphyxiation are quite common in human deliveries.

Dr. W. W. Windle of the Institute says asphyxiation may not be the only cause of cerebral palsy. But he points out that experiments show no other type of brain injury at birth found to lead to the disease.

Little Book Raises Storm

LONDON (UPI) — A little booklet called "Getting Married" caused a storm of protest in Great Britain because of its frankness in discussing pre-marital sex relations.

One chapter of the pamphet is entitled "Is Chastity Outmoded?" and another gets right down to brass tacks by asking in the opening lines: "So you're a bride. And are you pregnant too?"

The booklet, issued by the British Medical Association and edited by a woman doctor, has brought down the wrath of church officials who say it encourages free love.

Most of the barbs were aimed at an article written by Dr. Eustace Chessner, a London psychologist, who asked if chastity was becoming old fashioned.

Chessner plunged into the subject by saying: Pre-marital sexual intercourse, despite the fact that it is a limited relationship, can also be more than ordinarily pleasant.

Ask Mrs. M. D.

—why she uses "Lysol" when she cleans house! Hospital-tested "Lysol" is Canada's best-known, best-trusted household disinfectant. "Lysol" kills *every* disease germ it touches . . . on floors, walls, sinks, baby's crib, etc. 3 tablespoons to a gallon of water is all it takes. No danger to anything except germs!

Chevy's got it!
